Patients

Patient Search

To search for a patient from the home screen, you can start typing into the search control shown below:

						6
Search patier	nts	Q	Millerchester	~	0	2

You can select a branch from the box on the right, to limit your results.

The branches available will change depending on your user permission to access records from other branches.

The number of results is refined once you begin typing.

When there are more than 10 results, the patients are displayed in a paginated table (a limited number per page) as below:

Search pa	tents	Kenn	edycnester v	
DO #2115824	<u>Mx Danielle Owen (55)</u> campbelLkeeley@example.net +445587986854		ПН	s î
BS #8663323	Master Becky Stevens (65) sophie.rose@example.net +445623135591		(NH	s
LP	Dr Logan Palmer (107)		(NH	5
howing 1 t	o 10 of 24 results		< 1 2	3 >

When there are 10 results or fewer, the display is updated so you can view more information per patient:

mitchell,brad	ley	Q	New Dominic	× 0 8)
ВМ	Mr Bradley Mitchell- 10/03	3/1976 (47)			PRIVATE
	qpalmer@example.com

Recalls: 0					
Last Examina	ation: 0				
Latest / Next	t Appointment: No appts.				
Important N	otes: 0				

Clicking the " i " symbol.

Displays a popup information message on the methods you can use to search for patients.

(i)	
How to use the	search
Start typing a surname, firstname, us none number, email, date of birth (YY can also search by "sur,fir" "surname,	er ref #, address, postcode, YYMMDD). Alternatively, you firstname" ",firstname" ",fir"

When your search results are displayed, you can click the patient's name or initials to view their record.

Clicking the patient + symbol.

ഷ്

Provides a shortcut to create a new patient record. See the <u>create new patient</u> section for more details.

Click on

to search all patients

8

The Active Patients section of the main menu is used for quickly accessing recently used patients.

When you access a patient record, they are added to your Active Patients list.

You can go to a patient record from here by clicking on the Patient's name,

You can remove the patient from your active list by clicking the X icon next to their name.

Patient Record

The patient record stores the contact details for each patient. You are also able to see a summary of their activity within the practice.

There are Tabs across the top of the record that you can use to jump down the page to see a summary of the corresponding section.

The Actions menu on the patient record allows to you carry out certain functions relating to the patient record – it can be accessed by clicking 'Actions' to expand the menu.

Edit Patient

This will make all fields within the patient record accessible. Fields are free text unless there is a symbol within the field, such as \mathfrak{D} or \mathfrak{B} These when click on will present additional fields to add further data into.

Addresses

Postcode look up is available here by clicking on the blue circle Search.

The results for that postcode will be available for selection. Simply click on the correct address for the patient and then Save.

Address Lookup	×
Enter Postcode	_
Select Address	Q Search
	~
Address	
	h
✓ Save	

Multiple addresses can be added to the patient record in this way by clicking on the

Telephone Numbers and Email Addresses

Add multiple telephone numbers and or Email addresses by again clicking on the beneath the relevant heading. The phone numbers can be given a description in order to differentiate between each number added.

Contact Preferences and Marketing

Click in the relevant box to indicate which is preferred by the patient.

Stars

These can be selected by clicking in the relevant box. These **do not** have to be labelled and but if that is required then go to Setup and label the colour appropriately.

Once all the patient details have been completed click save at the bottom of the window.

eSignature

The patient signature can be captured here and subsequently used on eGOS claims later if they are happy to have their signature stored (For 12 hours maximum)

Send SMS

SMS can be sent out individually from within the patient record. If there are templates setup, select the one which is appropriate. Alternatively type out the text message and include any keywords from the list to the left. These will be pulled into the message from the patient record when sent. A preview can be accessed prior to

NHS Entitlements

You can assign NHS Entitlements to a patient from their record by toggling the switch on the entitlement when the patient is in edit mode.

DESCRIPTION	
Under 16	
Full Time Student	
Over 40 and Family Glaucoma History	
Over 60	
Registered Blind / Partially Sighted	
Diabetes Sufferer	
Glaucoma Sufferer	
Glaucoma Risk	
Prisoner on Leave	
Complex Lens	
Income Support	
Income-related Employment and Support Allowance	
Income-based Jobseeker's Allowance	
Pension Credit Guarantee Credit	
Universal Credit	
Tax Credit Exemption Certificate	
HC2 Certificate	
HC3 Certificate	
Discretionary	

Entitlements can be assigned during an exam or by editing the Patient Record. They are then displayed in the table on the patient record.

Recalls

On the Patient Record Screen, the Recalls section displays all recalls that are due for the patient.

ecalls (1)				
Expand / Collapse				
DESCRIPTION	PERIOD	DUE DATE		
Adult Sight Exam	24	18/04/2025		

In the table, there is the **Recall** category, the defined period, and the calculated due date. The colour of the due date will change, from Green, to Yellow, to Red, as the date approaches and is passed.

Appointments

The appointment summary display how many appointments the patient has had (or is due to have)

Appointments (1)	
Latest / Next Appointment: 18/04/2023 - 16:40	Failed to attend / Cancelled: 0

It also displays the date and time of the next/last appointment type along with the date and time so you can see if/when they are due into the practice.

Also on screen is a counter for Failed or Cancelled appointments for this patient.

Expanding the appointments control displays more details of all the patient's appointments.

Opened by OSM on 18/04/2023 - 15:53
Upcoming Appointment
Sight Exam @ 18/04/2023 - 16:40 Note:

Appointments will be displayed in tiles, with the most recent first.

The strip of colour across the top of each appointment booked denotes the appointment reason to easily identify the type of appointment that is booked.

Appointments will appear within two sections here, upcoming appointments and Past Appointments.

Examinations

Here you can see a history of examinations for the current patient. View historic examinations by clicking on the arrow on the right.

Examinations (1	.)				
Last exam: 18/04/2023 Type: Sight Exam	- 15:29	Optom: N Rx: R: Pl	fr Optinet Staff Member		
Expand / Collapse					^
EXAM TYPE	FINAL RX	ОРТОМ	DATE		
Sight Exam	R: Plano L: Plano	Mr Optinet Staff Member	18/04/2023 - 15:29	/ Edit 🙁 Delete	

You can create a new examination by using the plus icon.

Each previous exam is listed with a summary of the Final Rx, the optometrist and the date and time.

It is also possible to edit and delete an exam from here using the Edit and Delete buttons, but this is restricted by your user permissions, so is not available for all users.

1	Edit	団	Delete
/	Eait	U	Delete

When choosing to delete an exam, you are prompted to confirm you want to continue.

Notes

Patient notes are displayed in tiles on the patient record. In active or system notes can be hidden to keep the active notes visible and easier to find. This can be done by a button on the top right of the notes screen.

otes (2/6)		•

Note group: Patient Note which isn't flapged	A Note group: Patient	
	This not will be seen on the patient record. It can also be flagged or made inactive.	

If a note has been flagged to stand out, then it will have the coloured line above it as per the screenshot above. There is also a triangle with and exclamation mark noting it's a flagged message too.

You can toggle the 'Flag' option to denote that this is an important note.

You can also mark the note as 'Inactive' if you no longer wish it to be on the patient record.

If you have Flagged notes, a reminder is displayed at the top of the patient record. This reminder also acts as a clickable link so you can jump straight to view the note.

A Important notes found for this patient, click to jump to the notes section.

Flagged notes, are displayed with a warning triangle on their tile to denote their importance.

Files

Documents or pictures can be attached to the patient record from the **Files** tab. This can be done in two ways either by clicking on **Choose Files** or by clicking on **external upload**. External Upload will show a QR Code. When the QR Code is scanned on a mobile phone or tablet, it will allow any photographs or documents stored on that device to be uploaded directly to the patient record.

Click on File and select how the upload is going to be done.

New patient file(s)	×
