Stock

The stock menu item is divided into multiple sub-menus to allow you to manage different types of stock differently.

There are built in catalogues for Frames, Lenses, and Contact Lenses so you do not have to input your stock data manually.

All stock items can be priced individually and collectively, based on Formula, manually set, or updated based on a percentage or fixed amount.

Prices for stock items are stored against each item variation and can be different across multiple branches.

Frame Stock

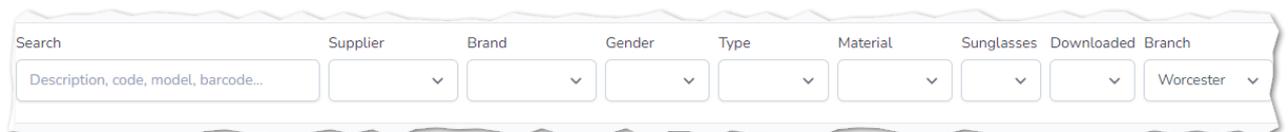

Frames can be downloaded directly into your stock by clicking on the **Download** button. If you have a frame(s) which aren't currently available to download there is an option to create a **New** frame.

Selecting the Frames submenu gives you options for searching, adding, and updating frame stock.

There are several combo boxes you can use to filter your frame stock.

For example, by Supplier or Brand etc:

The results of a search are displayed in a table below.

CODE	COLOUR	COLOUR CODE	EYE SIZE	DIBL SIDE	BRANCH	QTY	BARCODE	SALES GROUP	COST	RETAIL	FORMULA	SHELF	DISPLAY ONLY	
351205000000	ANTHRACITE/COOL GREY WGRN LEN	3	52	19	145	Worcester	-4	3577	Frames	£33.00	£33.00	<input checked="" type="checkbox"/>	<input type="checkbox"/>	+ Delete

Changing your filters will update the results automatically.

You can clear your filters by clicking the red X.

If there are a large number of results, the bottom of the screen displays how many pages you are viewing.

Showing 1 to 10 of 378 results

You can use the pagination control on the right-hand side to move through the results.

by clicking the left or right arrows

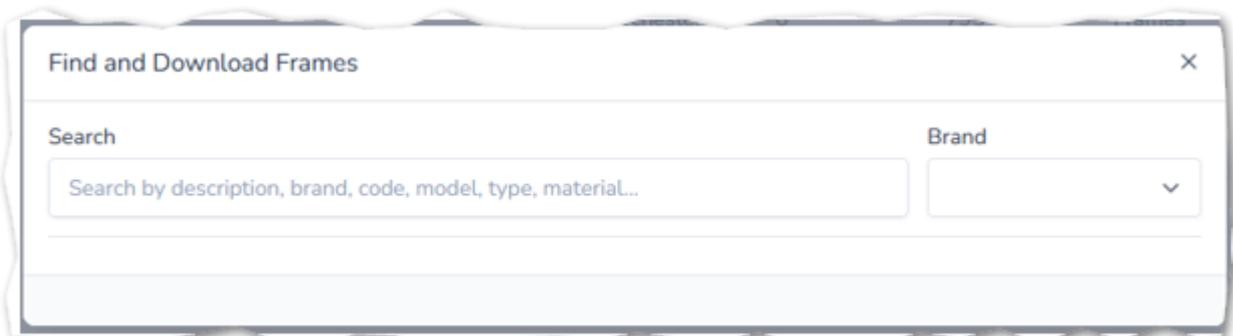

or selecting the page number you want to view.

Downloading

The quickest way to populate stock records is to download from our online catalogue. Click the download button to begin.

You will see a popup where you can enter any attributes of a frame, e.g. description, model, brand etc and a list of matching items is displayed.

Once you enter some criteria, the list of online frames is displayed.

Find and Download Frames ×

Brand: NIKE ▼ Search: Search by description, brand, code, model, type, material...

390

	MODEL	BRAND	SUPPLIER	TYPE	GENDER	MATERIAL	VARIATIONS
<input type="checkbox"/>	NIKE OTRIDER E EV1086	NIKE	Marchon	Full Rim	Unisex	Metal	
<input type="checkbox"/>	NIKE OTRIDER P EV1087	NIKE	Marchon	Full Rim	Unisex	Metal

361626000000	WALNUT/COURSE FLASH ELECTRIC	220	62x12x140	£58.00	

Tick the frame you want to download.

	MODEL	BRAND	SUPPLIER	TYPE	GENDER	MATERIAL	VARIATIONS
<input checked="" type="checkbox"/>	NIKE OUTRIDER E EV1086	NIKE	Marchon	Full Rim	Unisex	Metal	☰

And click 'Download Selected' to add this frame to your stock database.

Downloading small numbers of frames is recommended and they will be imported immediately.

Alternatively, you can click 'download all' to import all the matching frames into your stock database.

Downloading large numbers of frames will trigger a background process and you will be notified in the application once this is complete.

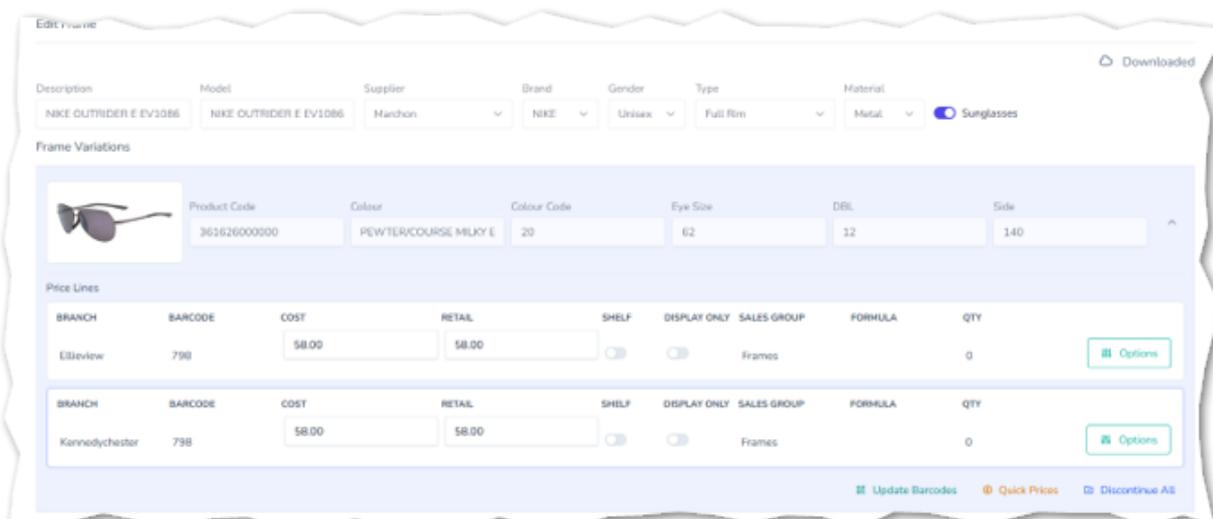

Downloaded frames will have a 'downloaded' flag assigned to them as there are some restrictions on editing downloaded data.

Editing

To edit a frame stock record, you can click the Edit button.  Edit

You are taken to a page containing the frame and variation details.

The screenshot shows the 'Edit Frame' interface. At the top, there are dropdown menus for Description, Model, Supplier, Brand, Gender, Type, and Material, along with a 'Sunglasses' toggle. Below this is the 'Frame Variations' section, which includes a product image of sunglasses and a table with columns for Product Code, Colour, Colour Code, Eye Size, DBL, and Side. The 'Price Lines' section contains two tables, each with columns for Branch, Barcode, Cost, Retail, Shelf, Display Only, Sales Group, Formula, and Qty. The first table shows 'Elleview' with a cost of 58.00 and retail of 58.00. The second table shows 'Kennedychester' with a cost of 58.00 and retail of 58.00. At the bottom right, there are buttons for 'Update Barcodes', 'Quick Prices', and 'Discontinue All'.

Here you can edit details of the frame variants. You can edit the **cost price** and **retail price** directly by typing into the edit controls. You can set the variant as a **Shelf item** (which

denotes that the stock item will have its quantity calculated), also you can set the item as **Display Only** which denotes it is on loan from the supplier and is not owned by the practice (Consignment).

COST	RETAIL	SHELF	DISPLAY ONLY
<input type="text" value="58.00"/>	<input type="text" value="58.00"/>	<input type="checkbox"/>	<input type="checkbox"/>

Changes made to the Prices on this page should be confirmed using the Save button at the bottom of the page.

<input type="button" value="X Cancel"/>	<input type="button" value="✓ Save"/>
---	---------------------------------------

Note: - Multiple Branches

If your practice has more than one branch the stock screen will have tabs within each item which will denote the branch name. There will then be the stock details including pricing.

The screenshot shows a 'Price Lines' interface with two tabs: 'Brownbury' and 'South Maisieberg'. The 'South Maisieberg' tab is selected and highlighted with a red box. Below the tabs is a table with columns: BARCODE, COST, RETAIL, SHELF, DISPLAY ONLY, SALES GROUP, FORMULA, VOUCHER, and QTY. The first row contains the values: 48424, 0.00, 0.00, a checked 'SHELF' toggle, an unchecked 'DISPLAY ONLY' toggle, 'Frames', an empty 'FORMULA' field, an empty 'VOUCHER' field, and '5'. An 'Options' button is located to the right of the table.

When downloading from the catalogue, some details are not editable. They display as greyed out on the page.

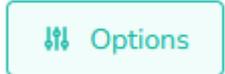

The screenshot shows an 'Edit Frame' interface with a 'Downloaded' button in the top right corner. Below the button is a table with columns: Description, Model, Supplier, Brand, Gender, Type, and Material. The first row contains the values: 'NIKE OUTRIDER E EV1086', 'NIKE OUTRIDER E EV1086', 'Marchon', 'NIKE', 'Unisex', 'Full Rim', and 'Metal'. The 'Supplier', 'Brand', 'Gender', and 'Material' fields are greyed out, indicating they are not editable.

Favourite

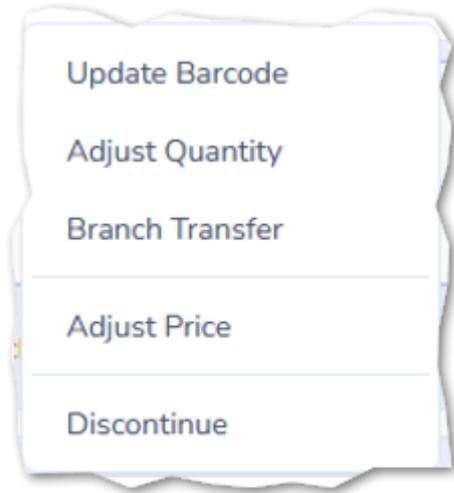

There is an option to click **Favourite**. This will make these items appear at the top of your item selection list when adding them to a dispense or a transaction.

Options

Click options to display a menu containing more actions relating to the frame.

The menu contains the following items.

Update Barcode

The option to update the barcode allows you to assign a new barcode to the frame variant.

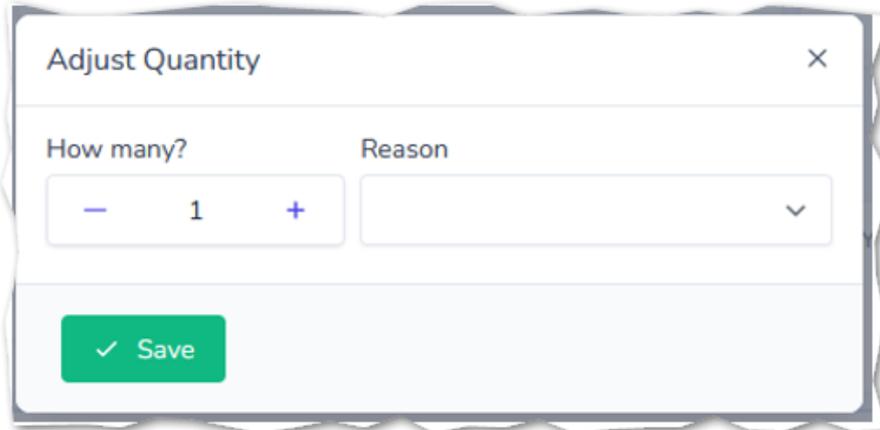

Barcodes can only be used once at a branch, so an alternative barcode is proposed automatically. Duplicate barcodes within a branch are not allowed.

A dialog box titled "Update Barcode" with a close button (X) in the top right corner. It contains three input fields: "Old" with the value "798", "New" which is empty, and "Next Available" with the value "800". At the bottom left, there is a green button with a white checkmark and the text "Save".

Enter your chosen barcode in the 'New' control and click Save to Confirm.

Adjust Quantity

Adjusting the quantity allows you to manually change the number of frames you have in stock for the variant you are editing.

The 'Adjust Quantity' dialog box features a title bar with a close button (X). Below the title bar, there are two main sections. The first section is labeled 'How many?' and contains a numeric input field with a value of '1', flanked by minus (-) and plus (+) buttons. The second section is labeled 'Reason' and contains a dropdown menu with a downward arrow. At the bottom of the dialog is a green button with a checkmark and the text 'Save'.

Use the + and – buttons to select how many you are adjusting by. You must choose a reason from the list to determine whether the quantity adjustment is going ‘into’ stock, or ‘out of stock’.

Click Save to confirm the quantity adjustment.

The image shows a table with columns: BRANCH, BARCODE, COST, RETAIL, SHELF, DISPLAY ONLY, SALES GROUP, FORMULA, and QTY. The first row shows 'Ellieviev' with barcode '798', cost '58.00', retail '58.00', and quantity '4'. Below the table is a 'Movements' section with columns: STAFF MEMBER, MOVEMENT REASON, AMOUNT MOVED, and DATE. The first movement entry shows 'My Optinet Staff Member' as the staff member, 'Delivery In From Supplier' as the reason, '4' as the amount moved, and '04/04/2023 - 09:26' as the date.

BRANCH	BARCODE	COST	RETAIL	SHELF	DISPLAY ONLY	SALES GROUP	FORMULA	QTY
Ellieviev	798	58.00	58.00			Frames		4

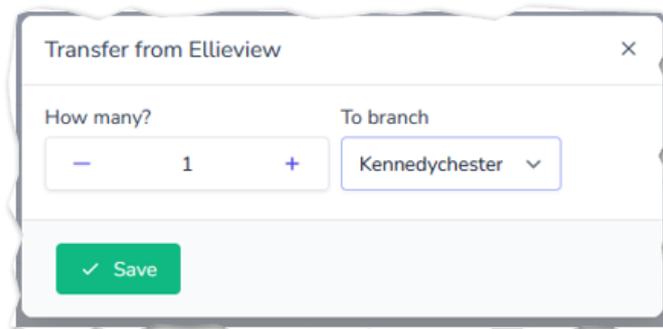

STAFF MEMBER	MOVEMENT REASON	AMOUNT MOVED	DATE
My Optinet Staff Member	Delivery In From Supplier	4	04/04/2023 - 09:26

Once confirmed, you will see the movement history of the item.

Branch Transfer

Using the Branch Transfer option allows you to record a frame movement from one branch to another.

Select how many of the item you are transferring, and select the destination Branch they are going to.

The 'Transfer from Ellieviev' dialog box has a title bar with a close button (X). It contains two sections. The first is labeled 'How many?' with a numeric input field set to '1' and minus (+) buttons. The second is labeled 'To branch' with a dropdown menu showing 'Kennedychester' and a downward arrow. A green 'Save' button is at the bottom.

Click Save to confirm the Transfer.

The Qty at both branches (source and destination) are updated, with a movement line added.

BRANCH	BARCODE	COST	RETAIL	SHELF	DISPLAY ONLY	SALES GROUP	FORMULA	QTY	
Droitwich	14163	<input type="text" value="59.90"/>	<input type="text" value="59.90"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Frames		4	Options

[Update Barcodes](#) [Quick Prices](#) [Discontinue All](#)

For Cost and Retail price you can Increase, Decrease, or Set the price.

All three options can use a fixed amount, and additionally for Increase and Decrease you can choose a percentage.

You can also choose to assign the item to a sales group or apply a formula to calculate the prices.

Quick Prices

Update Cost Price

Action	Amount	Type
<input type="text" value=""/>	<input type="text" value=""/>	£ <input type="text" value=""/>

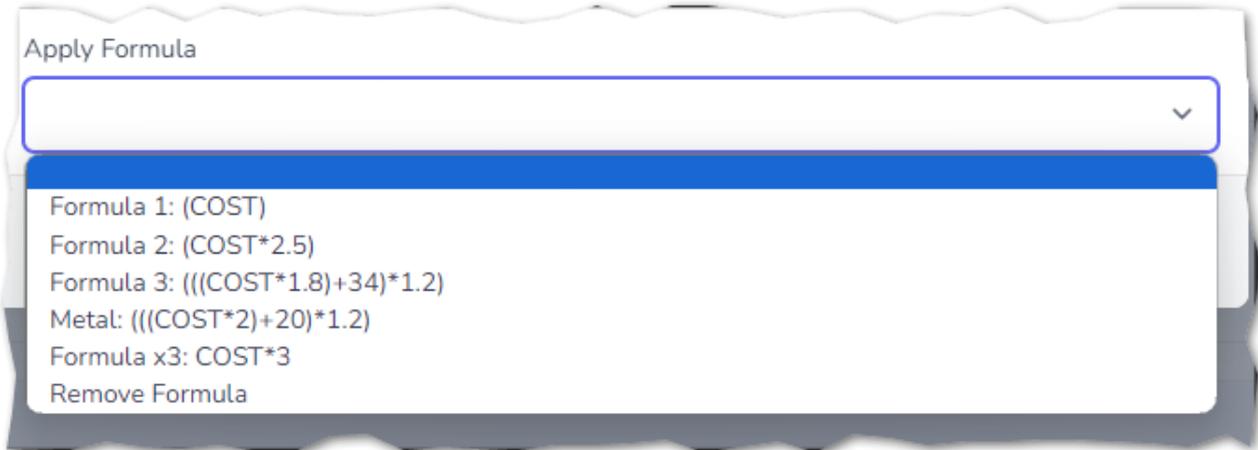

Update Retail Price

Action	Amount	Type
<input type="text" value=""/>	<input type="text" value=""/>	£ <input type="text" value=""/>

Update Sales Group

Apply Formula

To apply a formula select from the dropdown menu the option you want to use.

e.g. Selecting a formula shows an example calculation.

Click Save to confirm the changes.

Discontinue

Clicking Discontinue marks the frame as no longer active – it cannot be sold in the application any longer.

The frame record is displayed with a strikethrough after it is saved.

A screenshot of a software interface showing a table titled "Price Lines". The table has columns for BRANCH, BARCODE, COST, RETAIL, SHELF, DISPLAY ONLY, SALES GROUP, FORMULA, and QTY. The first row shows data for "Droitwich" with barcode "14158", cost "59.90", retail "59.90", and sales group "Frames". The "QTY" column shows "4" and "Discontinued" with a red circle containing the number "1". There is an "Options" button next to the "Discontinued" status. Below the table is a "Movements" section with a dropdown arrow.

BRANCH	BARCODE	COST	RETAIL	SHELF	DISPLAY ONLY	SALES GROUP	FORMULA	QTY
Droitwich	14158	59.90	59.90	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Frames		4 Discontinued 1 Options

Movements ▼

Quick Prices

The quick prices option allows you to apply pricing changes, as well as setting a sales group and formula for all the variations of the current Frame record.

Quick Prices

Applies to the current Frame header and its variations.

IMAGE	CODE	CLOUR	CLOUR CODE	EYE SIZE	DIOL	SIDE	BRANCH	QTY	BARCODE	SALES GROUP	COST	RETAIL	FORMULA	SHELF	DISPLAY ONLY
	354106000000	MATTE BLACK/DARK GREY LENS	1	60	13	135	West Mike	0	1283	Frames	£48.96	£48.00		<input type="checkbox"/>	<input type="checkbox"/>
	354106000000	MATTE ANTHRACITE/DARK GREY	60	60	13	135	West Mike	0	1284	Frames	£48.96	£48.00		<input type="checkbox"/>	<input type="checkbox"/>
	354106000000	MATTE TORTOISE/DARK BROWN	202	60	13	135	West Mike	0	1285	Frames	£48.96	£48.00		<input type="checkbox"/>	<input type="checkbox"/>

Create From

The Create From option allows you to create a new frame header (and associated variations) from an existing frame header, for example, to create a custom version of a downloaded frame.

Select **'Create From'**

Create From

The new Frame record is displayed, and the description is appended with '(Clone)' to indicate that it has been copied.

Description

PREMIER EV1071 (Clone)

New barcodes are generated for the frame variants.

You can make any changes to the frame details including prices and sales group using the Quick Prices option.

You can also add a new variation.

+ Add Variation

A new variation allows you to create a new colour/size combination to your frame record. This option is only available on frames that have not been downloaded.

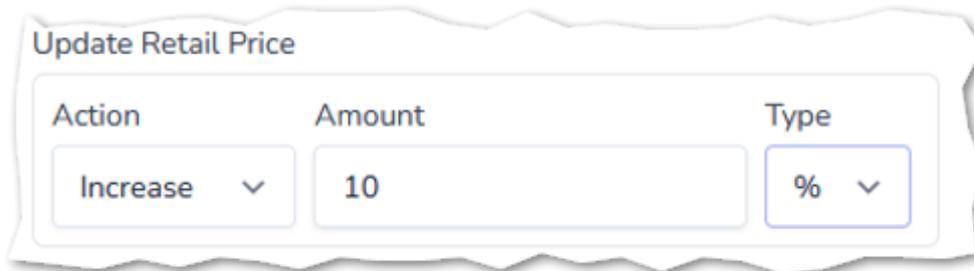

Once you are happy with your cloned frame record, you can click 'save' to confirm, or cancel to abandon the changes.

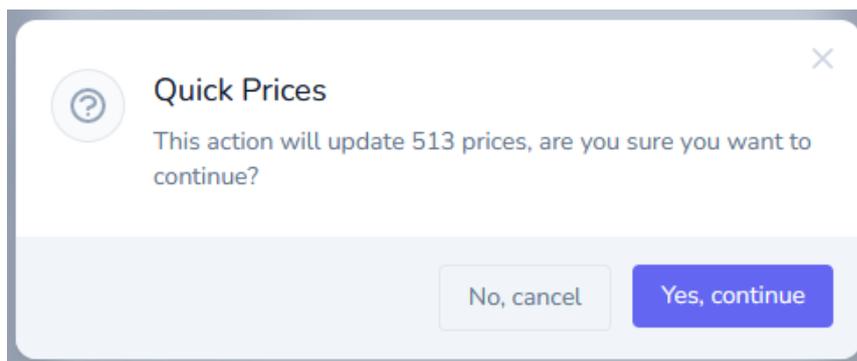

Quick Price All

The Quick Price All option is a feature that allows you to expand the pricing options to include all frames within your search results. It uses the same pricing window as Quick Prices but can be used to update hundreds of frames in a single action.

For example, you can apply a percentage increase across your entire frame stock.

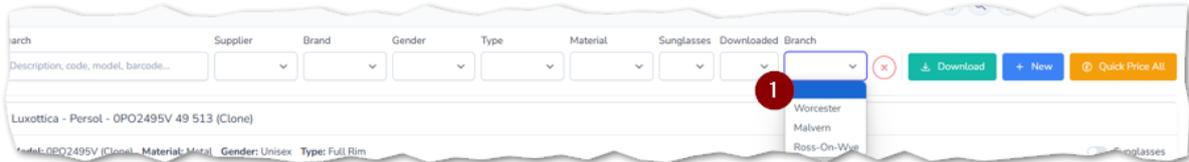

When applying the price update to a large number of records, a warning will appear to ask you to confirm that you want to make this change to the specified number of records.

Click '**Yes, continue**' if you are happy to proceed, or 'No, cancel' to abandon your changes.

Multi Branches

If you have multiple branches you can amend the price of a frame and all its variants for every branch at the same time or simply change the price per branch. If you want to change them for all branches, take the branch selected out and leave it blank this will display all items for every branch.

This list will appear with this item for every branch

A screenshot of a table showing frame variants for different branches. The table has columns for CODE, COLOUR, COLOUR CODE, EYE SIZE, DBL, SIDE, BRANCH, QTY, BARCODE, SALES GROUP, COST, RETAIL, FORMULA, SHELF, and DISPLAY ONLY. The data is as follows:

CODE	COLOUR	COLOUR CODE	EYE SIZE	DBL	SIDE	BRANCH	QTY	BARCODE	SALES GROUP	COST	RETAIL	FORMULA	SHELF	DISPLAY ONLY
8056597595575	BLACK	107B	49	20	140	Malvern	1	36208	Frames	£50.09	£120.09		<input type="checkbox"/>	<input type="checkbox"/>
						Worcester	2	36169	Frames	£50.09	£120.09		<input type="checkbox"/>	<input type="checkbox"/>
						Ross-On-Wye	0	5891	Frames	£50.09	£120.09		<input type="checkbox"/>	<input type="checkbox"/>

Now when “Quick Price” is selected, any changes will be applied to that frame and its variants to every branch.

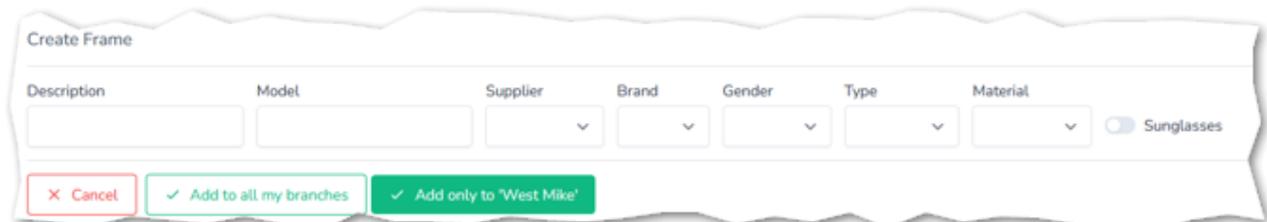

New

It is possible to create a new Frame manually by clicking the ‘New’ button from the Frame screen.

Enter the Frame details and choose to add it to your active branch, or all branches (if you have access to more than branch).

Once the Frame Header record has been created, you can populate the variations and the price lines for your new frame.

The screenshot shows the 'Edit Frame' interface. At the top, there are several dropdown menus for 'Description' (Maui Jim GF), 'Model' (Good Fun), 'Supplier' (Maui Jim), 'Brand' (Starfish), 'Gender' (Female), 'Type' (Full Rim), and 'Material' (Plastic). There is also a 'Sunglasses' toggle switch which is currently turned on. Below these are 'Frame Variations' fields for 'Product Code', 'Colour', 'Colour Code', 'Eye Size', 'DBL', and 'Side'. The main section is a table of 'Price Lines' with columns: BRANCH, BARCODE, COST, RETAIL, SHELF, DISPLAY ONLY, SALES GROUP, FORMULA, and QTY. There are three rows of price lines, each with an 'Options' button to its right. At the bottom right, there are three buttons: 'Update Barcodes', 'Quick Prices', and 'Discontinue All'.

BRANCH	BARCODE	COST	RETAIL	SHELF	DISPLAY ONLY	SALES GROUP	FORMULA	QTY	Options
Worcester	14180	0.00	0.00	<input type="checkbox"/>	<input type="checkbox"/>	Frames		0	Options
Droitwich	14180	0.00	0.00	<input type="checkbox"/>	<input type="checkbox"/>	Frames		0	Options
Ross-On-Wye	14180	0.00	0.00	<input type="checkbox"/>	<input type="checkbox"/>	Frames		0	Options

The update Barcodes, Quick Prices and Discontinue options operate in the same way as when you are editing an existing frame.

Contact Lenses

Selecting the Contact Lens submenu gives you options for searching, adding, and updating contact lenses.

There are several combo boxes you can use to filter your Contact Lenses.

For example, by Type of Lens:

The functions available for Contact Lenses are the same as Frames, i.e. [Downloading](#), [Quick Pricing](#) and [Quick Pricing All](#). The only difference is the New / Edit option.

Contact Lens records have alternative fields available.

Like Frame Stock, some fields are greyed for downloaded lenses.

Lens Parameters

When adding Contact Lenses, it is important to add the lens parameters correctly. There are two methods for entering values.

Comma Separated Values

A list of values can be entered separated by a comma, for example: 8.2, 8.4.

This means that only the values listed (8.2 and 8.4) are available for selection in the Contact Lens exam.

Stepped Ranges

Stepped Ranges allows a higher degree of precision by allowing a range of values. For example:

0.25 – 3.75 (0.25)

This produces values starting at 0.25 and ending in 3.75 but including all values in between using 0.25 steps, e.g. 0.25, 0.50, 0.75, 1.00 1.25 etc.

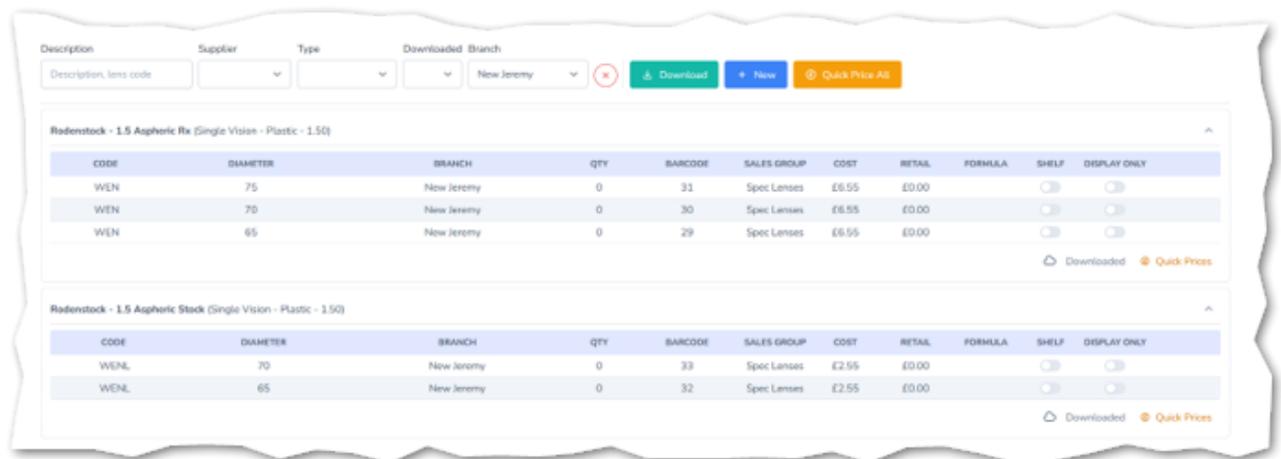

Ranges can be combined using a | character, for example:

0.25 – 3.75 (0.25) | 5.50 – 7.50 (0.50)

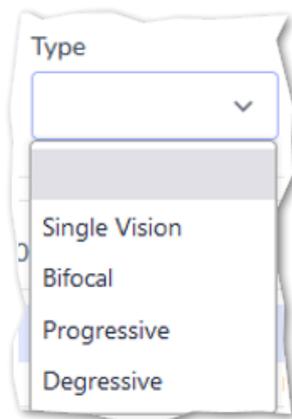

This appends to the original ranges, every value between 5.50 and 7.50 at 0.50 intervals, e.g. 5.50, 6.00, 6.50, 7.00, 7.25.

Spec Lenses

The functions available for Spec Lenses are the same as Frames, i.e. Downloading, Quick Pricing and Quick Pricing All. The only difference is the New / Edit option.

You can filter your lenses by selecting the options at the top of the page.

Spec Treatments

Spec Treatments are downloaded automatically alongside spec Lenses. Treatments are additions to a lens, for example, a Tint or a coating.

The same pricing options are available for treatments as is available for Frames, i.e. [Quick Pricing](#) and [Quick Pricing All](#).

Sundries and Fees

Sundries and Fees section of Stock enables to view and manage any other items of stock.

Sundries are classed as physical goods, e.g. glasses cases, contact lens solutions that are usually sold over the counter.

Fee are items that are sold that are not physical goods, for example, a sight exam or a contact lens exam.

X
+ New Sundry Item
+ New Fee
Quick Price All

DESCRIPTION	BRAND	SUPPLIER	BRANCH	QTY	BARCODE	SALES GROUP	COST	RETAIL	FORMULA	SHELF	DISPLAY ONLY	
Opti-Free Express			New Luke	0	204	Sundries	£3.50	£6.99		<input checked="" type="checkbox"/>	<input type="checkbox"/>	Edit
			New Alexview	0	204	Sundries	£3.50	£6.99		<input checked="" type="checkbox"/>	<input type="checkbox"/>	Quick Prices

			New Alexview	0	203	Fees	£0.00	£23.10		<input type="checkbox"/>	<input type="checkbox"/>	Quick Prices

Searching

Use the filter options at the top of the page to update the list of items that are displayed.

X

You can search by description, product group and branch. The branches listed are the branches that you have access to.

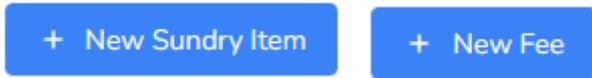

De-selecting Branch or Product group will display records from all branches, or both the Sundries and Fees product groups.

DESCRIPTION	BRAND	SUPPLIER	BRANCH	QTY	BARCODE	SALES GROUP	COST	RETAIL
Opti-Free Express			New Luke	0	204	Sundries	£3.50	£6.99
			New Alexview	0	204	Sundries	£3.50	£6.99

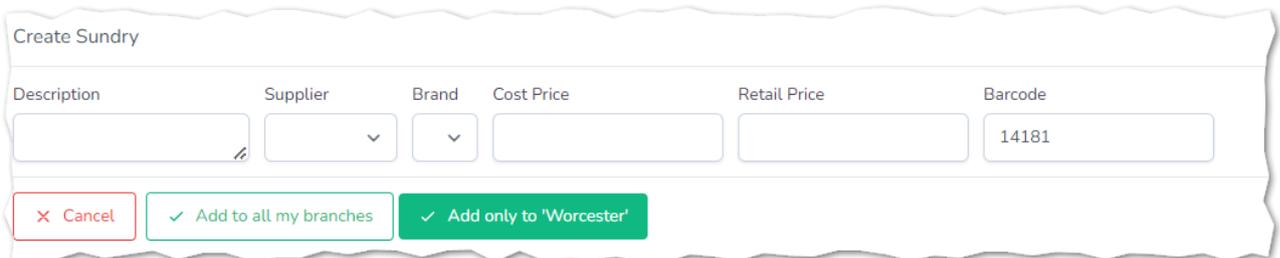

It should be noted that Product Group does not equal Sales Group. For more information see the Stock section of the settings.

New Sundry/Fee

You can create a new Sundry or Fee by using either of the buttons displayed at the top of the screen.

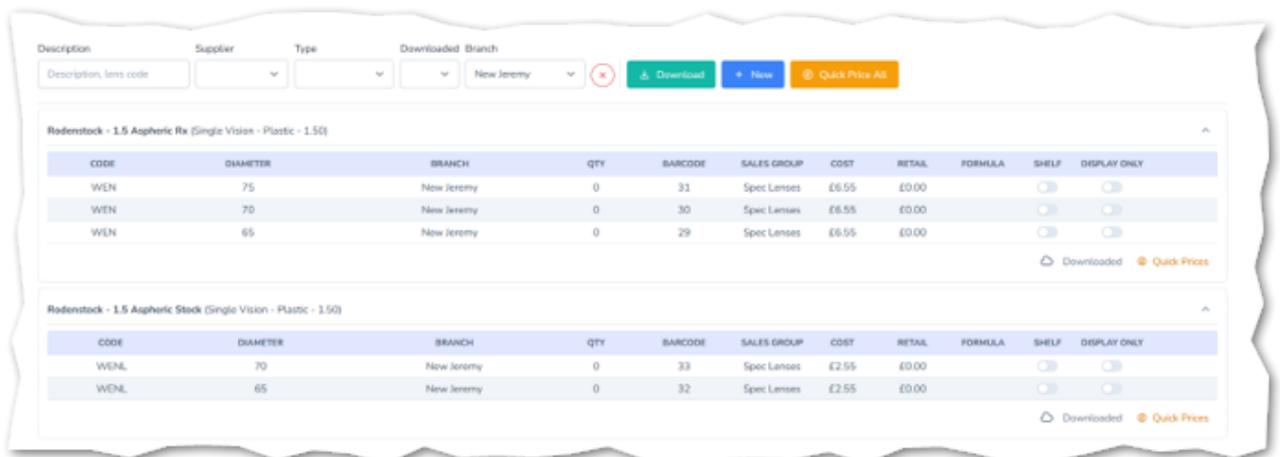

The process for creating a sundry item or fee item is the same as when creating a new frame but it is simpler as there are no variations.

The 'Create Sundry' form includes the following fields and buttons:

- Description:
- Supplier:
- Brand:
- Cost Price:
- Retail Price:
- Barcode:
- Buttons: ✕ Cancel, ✓ Add to all my branches, ✓ Add only to 'Worcester'

Once you have entered your details, the records are displayed on screen.

The table displays two sections of items:

Section 1: Radenstock - 1.5 Aspheric Ita (Single Vision - Plastic - 1.50)

CODE	DIAMETER	BRANCH	QTY	BARCODE	SALES GROUP	COST	RETAIL	FORMULA	SHELF	DISPLAY ONLY
WEN	75	New Jersey	0	31	Spec Lenses	£6.55	£0.00		<input type="checkbox"/>	<input type="checkbox"/>
WEN	70	New Jersey	0	30	Spec Lenses	£6.55	£0.00		<input type="checkbox"/>	<input type="checkbox"/>
WEN	65	New Jersey	0	29	Spec Lenses	£6.55	£0.00		<input type="checkbox"/>	<input type="checkbox"/>

Section 2: Radenstock - 1.5 Aspheric Stock (Single Vision - Plastic - 1.50)

CODE	DIAMETER	BRANCH	QTY	BARCODE	SALES GROUP	COST	RETAIL	FORMULA	SHELF	DISPLAY ONLY
WENL	70	New Jersey	0	33	Spec Lenses	£2.55	£0.00		<input type="checkbox"/>	<input type="checkbox"/>
WENL	65	New Jersey	0	32	Spec Lenses	£2.55	£0.00		<input type="checkbox"/>	<input type="checkbox"/>

Once your items are created, they can be edited and updated in the same way as other stock items.
